

CII IL Education Programs - Corporates

With an intent to upgrade existing knowledge in the industry, CII IL has designed below online programs benefitting the working community.

1. Customised Education Program (Online / Direct)
2. Online Education Program

Customized education programs: As an attempt to add another dimension and depth to education, we offer customized programs thereby generating avenues to fulfil the knowledge and operational gaps to attain excellence, This is an attempt that emphasizes continuous learning and continuous improvement, where the impact of the program is regularly monitored.

Online education programs: This program enables the participants to have a better understanding of new trends, process and best practices in the sector which adds value to their individual performances and overall productivity of the organization. With enhanced knowledge base, the organization can definitely look for improved output, performance and business results through this online program.

Audience: Companies which has Logistics and Supply Chain domain focus.

Key benefits of pursuing CII IL Corporate Education Program:

Employers	Employees
In-house training programme	Flexible learning sessions during week days and weekends at work location
Customized programme that suits the organization requirements	Exploration of new domain or enhancement of knowledge in the existing domain
Visits to parallel players that increases the scope for process improvement initiated by the employees that results in better positioning	Deep orientation on current challenges faced by Indian companies
Domain strengthened workforce	Certification from CII – Center of Excellence for Logistics & SCM
Opportunity to provide co-branded certification with CII IL	CII IL alumni membership to be active member of Logistics and SCM professional community
