SESSION I: MOBILIZING GLOBAL GREEN FINANCE FOR SUSTAINABLE SUPPLY CHAIN TRANSFORMATION

Move beyond general discussions of green finance to delve into the specific mechanisms and strategies for channeling global capital towards sustainable supply chain initiatives, particularly within the Indian context. Explore how to create bankable projects that attract international investors, and how to navigate the complexities of global ESG standards.

- Evolving landscape of global green bond markets
- Role of impact investors and blended finance models
- Challenges of harmonizing diverse global ESG reporting and disclosure standards
- Certified sustainable logistics infrastructure
- Case studies on successful public-private partnerships
