CII Certified Warehouse Kaizen Practitioner Program

Indo-Japan Logistics Human Resource Development Cooperation

1. Course enrolment

The course is organized in three modules which can be completed in 90 hours and within in 3 months. All entries to this program will be only through nominations from employers.

2. Course details

Certified Warehouse Kaizen Practitioner course modules require considerable focus on study and practice. It follows “learning by doing” principle and therefore mandates every training delegate to practice key learnings in controlled work environment under proper supervision.

Blended course design ensures participants will receive best value through online lectures, digital forums, workshops and assessments.

3. Courseware and online classroom

Full courseware will be shared with registered participants at the start of the program. Instructions related to URL, login and password to access online learning platform will be provided to participants after acceptance of applications by CII Institute of Logistics.

All online classroom discussions will be conducted using Microsoft Teams.

Training delegates are requested to seek required support from respective internal IT departments to enable access for both online courseware and MS Teams.

It is mandatory to submit duly signed declaration in “Annexure A” before the start of the training program.
